Hypertonic saline versus other intracranial pressure?lowering agents for people with acute traumatic brain injury

Chen Han, Song Zhi

Authors' objectives
This is the protocol for a review and there is no abstract. The objectives are as follows: To compare the effects of HTS solutions versus those of other ICP-lowering agents in reducing mortality, disability and elevated ICP in people with acute TBI. To quantify potential side effects resulting from the use of HTS solutions. US: http://onlinelibrary.wiley.com/doi/10.1002/14651858.CD010904/abstract
