Association between MTHFR gene polymorphisms and the risk of autism spectrum disorders: a meta-analysis

Pu D, Shen Y, Wu J

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
23653228

DOI
10.1002/aur.1300

Indexing Status
Subject indexing assigned by NLM

MeSH
Case-Control Studies; Child; Child Development Disorders, Pervasive /genetics /prevention & control; Cross-Cultural Comparison; Developing Countries; Epigenesis, Genetic /genetics; Folic Acid /administration & dosage; Folic Acid Deficiency /complications /genetics; Food, Fortified; Gene Frequency; Genetic Predisposition to Disease /genetics; Genotype; Heterozygote Detection; Humans; Methylenetetrahydrofolate Reductase (NADPH2) /genetics; Polymorphism, Genetic /genetics; Risk Factors

AccessionNumber
12013025128

Date bibliographic record published
08/07/2013
