A review on the effectiveness of repetitive transcranial magnetic stimulation (rTMS) on post-stroke aphasia
Wong IS, Tsang HW

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details
Wong IS, Tsang HW. A review on the effectiveness of repetitive transcranial magnetic stimulation (rTMS) on post-stroke aphasia. Reviews in the Neurosciences 2013; 24(1): 105-114

PubMedID
23241586

DOI
10.1515/revneuro-2012-0072

Indexing Status
Subject indexing assigned by NLM

MeSH
Aphasia /etiology /therapy; Databases, Factual /statistics & numerical data; Humans; Outcome Assessment (Health Care); Stroke /complications; Transcranial Magnetic Stimulation /methods

AccessionNumber
12013032763

Date bibliographic record published
04/07/2013
