Antioxidant supplementations for prevention of atrial fibrillation after cardiac surgery: an updated comprehensive systematic review and meta-analysis of 23 randomized controlled trials
Ali-Hassan-Sayegh S, Mirhosseini SJ, Rezaeisadrabadi M, Dehghan HR, Sedaghat-Hamedani F, Kayvanpour E, Popov AF, Liakopoulos OJ

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
24556447

DOI
10.1093/icvts/ivu020

Indexing Status
Subject indexing assigned by NLM

MeSH
Acetylcysteine /administration & dosage; Anti-Arrhythmia Agents /administration & dosage; Antioxidants /administration & dosage; Ascorbic Acid /administration & dosage; Atrial Fibrillation /diagnosis /etiology /prevention & control; Cardiac Surgical Procedures /adverse effects; Dietary Supplements; Fatty Acids, Unsaturated /administration & dosage; Humans; Length of Stay; Odds Ratio; Randomized Controlled Trials as Topic; Risk Factors; Time Factors; Treatment Outcome

AccessionNumber
12014015867

Date bibliographic record published
26/03/2014
