Paradigm shift in manual therapy: evidence for a central nervous system component in the response to passive cervical joint mobilisation
Schmid A, Brunner F, Wright A, Bachmann L M

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
18316238

DOI
10.1016/j.math.2007.12.007

Indexing Status
Subject indexing assigned by NLM

MeSH
Afferent Pathways /physiopathology; Biomechanical Phenomena; Double-Blind Method; Evidence-Based Medicine; Humans; Manipulation, Spinal /methods; Motor Activity /physiology; Neck Pain /diagnosis /physiopathology /therapy; Neural Pathways /physiopathology; Pain Measurement; Randomized Controlled Trials as Topic; Research Design; Sympathetic Nervous System /physiopathology; Treatment Outcome

AccessionNumber
12008107799

Date bibliographic record published
29/04/2009
