Intraventricular fibrinolysis versus external ventricular drainage alone in intraventricular hemorrhage: a meta-analysis
Gaberel T, Magheru C, Parienti JJ, Huttner HB, Vivien D, Emery E

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
21817146

DOI
10.1161/STROKEAHA.111.615724

Original Paper URL
http://stroke.ahajournals.org/content/42/10/2776.abstract

Indexing Status
Subject indexing assigned by NLM

MeSH
Cerebral Hemorrhage /drug therapy /surgery /therapy; Cerebral Ventricles /surgery; Drainage /methods; Fibrinolytic Agents /therapeutic use; Humans; Injections, Intraventricular; Thrombolytic Therapy /methods; Tissue Plasminogen Activator /therapeutic use; Treatment Outcome

AccessionNumber
12011006464

Date bibliographic record published
14/07/2012
