Meta-analysis of cytochrome P450 2C19 polymorphism and risk of adverse clinical outcomes among coronary artery disease patients of different ethnic groups treated with clopidogrel

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
22591668

DOI
10.1016/j.amjcard.2012.04.020

Original Paper URL
http://www.ajconline.org/article/S0002-9149(12)01180-0/abstract

Indexing Status
Subject indexing assigned by NLM

MeSH
Aryl Hydrocarbon Hydroxylases /genetics; Cohort Studies; Coronary Artery Disease /drug therapy /ethnology /genetics; Cytochrome P-450 CYP2C19; Ethnic Groups; Humans; Platelet Aggregation Inhibitors /therapeutic use; Polymorphism, Genetic /genetics; Prospective Studies; Randomized Controlled Trials as Topic; Risk Assessment; Ticlopidine /analogs & derivatives /therapeutic use; Treatment Outcome

AccessionNumber
12012038497

Date bibliographic record published
19/10/2012
