A meta-analysis of the effectiveness of ozone and collagenase treatments for herniated lumbar discs
Wang WX, Yang HF, Du Y, Xu XX, Li Y, Li B, Huang YY, Xiao YQ, Feng L

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

DOI
10.3969/j.issn.1008-794X.2013.01.009

Original Paper URL
http://dx.doi.org/10.3969/j.issn.1008-794X.2013.01.009

Indexing Status
Subject indexing assigned by CRD

MeSH
Humans; Lumbar Vertebrae; Intervertebral Disc Displacement; Microbial Collagenase; Ozone

AccessionNumber
12013023231

Date bibliographic record published
20/05/2014
