Systematic review with meta-analysis: Accuracy of interferon-gamma releasing assay and anti-Saccharomyces cerevisiae antibody in differentiating intestinal tuberculosis from Crohn's disease in Asians

Ng SC, Hirai HW, Tsoi KK, Wong SH, Chan FK, Sung JJ, Wu JC

Record Status
This is a systematic review that meets the criteria for inclusion on DARE. If you would like us to consider prioritising the writing of a critical abstract for this review please e-mail CRD-DARE@york.ac.uk quoting the Accession Number of this record. Please note that priority is given to fast track requests from the UK National Health Service.

Bibliographic details

PubMedID
24910240

DOI
10.1111/jgh.12645

Indexing Status
Subject indexing assigned by NLM

MeSH
Antibodies, Fungal /blood; Biomarkers /blood; Crohn Disease /diagnosis; Diagnosis, Differential; Diagnostic Techniques, Digestive System; Humans; Interferon-gamma /blood; Saccharomyces cerevisiae /immunology; Sensitivity and Specificity; Tuberculosis, Gastrointestinal /diagnosis

AccessionNumber
12014038615

Date bibliographic record published
17/10/2014
