Non-pharmacological interventions for patients with mild cognitive impairment: a meta-analysis of randomized controlled trials of cognition-based and exercise interventions

Record Status
This is a systematic review that meets the criteria for inclusion on DARE. If you would like us to consider prioritising the writing of a critical abstract for this review please e-mail CRD-DARE@york.ac.uk quoting the Accession Number of this record. Please note that priority is given to fast track requests from the UK National Health Service.

Bibliographic details

PubMedID
24927709

DOI
10.3233/JAD-140660

Indexing Status
Subject indexing assigned by NLM

MeSH
Databases, Bibliographic; Exercise /physiology; Exercise Therapy /methods; Female; Humans; Male; Mild Cognitive Impairment /rehabilitation; Neuropsychological Tests; Randomized Controlled Trials as Topic /methods /statistics & numerical data

AccessionNumber
12014039376

Date bibliographic record published
10/10/2014
