Does planning how to cope with anticipated barriers facilitate health-related behaviour change? A systematic review
Kwasnicka D, Presseau J, White M, Sniehotta FF

Record Status
This is a systematic review that meets the criteria for inclusion on DARE. If you would like us to consider prioritising the writing of a critical abstract for this review please e-mail CRD-DARE@york.ac.uk quoting the Accession Number of this record. Please note that priority is given to fast track requests from the UK National Health Service.

Bibliographic details

DOI
10.1080/17437199.2013.766832
