Meta-analysis of randomized controlled trials of preprocedural statin administration for reducing contrast-induced acute kidney injury in patients undergoing coronary catheterization

Giacoppo D, Capodanno D, Capranzano P, Aruta P, Tamburino C

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
25001154

DOI
10.1016/j.amjcard.2014.05.036

Indexing Status
Subject indexing assigned by NLM

MeSH
Acute Kidney Injury /chemically induced /physiopathology /prevention & control; Cardiac Catheterization; Contrast Media /adverse effects; Coronary Angiography /methods; Coronary Artery Disease /radiography; Glomerular Filtration Rate /drug effects; Humans; Hydroxymethylglutaryl-CoA Reductase Inhibitors /administration & dosage; Randomized Controlled Trials as Topic

AccessionNumber
12014044618

Date bibliographic record published
24/10/2014
