Issues in the development of an AIDS vaccine

Office of Technology Assessment

Record Status
This is a bibliographic record of a published health technology assessment. The agency responsible for the publication, formerly a member of INAHTA, has subsequently been disbanded. No evaluation of the quality of this assessment has been made for the HTA database.

Citation

Authors' objectives
The purpose of this background paper is to examine potential adverse reactions to AIDS vaccines in development. In addition, the paper will look at compensation issues and ethical concerns that arise in AIDS vaccine testing and marketing.
