A systematic review of the measurement properties of self-report instruments that assess presenteeism

Thompson A, Ospina M, Dennett L, Waye A, Jacobs P

Record Status
This is a bibliographic record of a published health technology assessment from a member of INAHTA. No evaluation of the quality of this assessment has been made for the HTA database.

Citation

Authors' objectives
1. to describe the frequency and characteristics of use of instruments measuring presenteeism in the scientific literature,
2. to summarize the measurement properties (i.e., validity, reliability, responsiveness) of instruments assessing presenteeism, and
3. to analyze the quality of studies that have evaluated the measurement properties of presenteeism instruments.
