Effect of intraoperative high inspired oxygen fraction on surgical site infection, postoperative nausea and vomiting, and pulmonary function: systematic review and meta-analysis of randomized controlled trials

Hovaguimian F, Lysakowski C, Elia N, Tramer MR

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
23719611

DOI
10.1097/ALN.0b013e31829aaff4

Indexing Status
Subject indexing assigned by NLM

MeSH
Humans; Intraoperative Period; Lung /physiology; Oxygen /therapeutic use; Oxygen Inhalation Therapy /methods; Postoperative Nausea and Vomiting /prevention & control; Surgical Wound Infection /prevention & control

AccessionNumber
12013029538

Date bibliographic record published
17/06/2013
