Diagnostic accuracy of F-18-fluoroethyltyrosine PET and PET/CT in patients with brain tumor
Dunet V, Prior JO

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

DOI
10.1007/s40336-013-0017-z

Original Paper URL

Indexing Status
Subject indexing assigned by CRD

MeSH
Sensitivity and Specificity; Humans; Positron-Emission Tomography and Computed Tomography; Fluorodeoxyglucose F18; Brain Neoplasms

AccessionNumber
12013068883

Date bibliographic record published
17/12/2013
