Evidence Review Group approaches to the critical appraisal of manufacturer submissions for the NICE STA process: a mapping study and thematic analysis

Kaltenthaler E, Boland A, Carroll C, Dickson R, Fitzgerald P, Papaioannou D

Record Status
This is a bibliographic record of a published health technology assessment from a member of INAHTA. No evaluation of the quality of this assessment has been made for the HTA database.

Citation

Authors' conclusions
Study proposed changes to the National Institute for Health and Clinical Excellence website to enable easier access to relevant information, suggested guidance for more appropriate manufacturer submissions and provided recommendations for guiding Evidence Review Group teams and improving reporting methods.
