Fludarabine phosphate for the first-line treatment of chronic lymphocytic leukaemia

Record Status
This is a bibliographic record of a published health technology assessment from a member of INAHTA. No evaluation of the quality of this assessment has been made for the HTA database.

Citation

Authors' conclusions
To enable an accurate assessment to be made of the clinical and cost-effectiveness of fludarabine as first-line treatment for chronic lymphocytic leukaemia there is a need for further evidence to clarify areas of uncertainty.
