## Colorec bowel aid with Hai's Perianal Support (HPS)

*Malaysian Health Technology Assessment (MaHTAS)*

---

### Record Status

This is a bibliographic record of a published health technology assessment from a member of INAHTA. No evaluation of the quality of this assessment has been made for the HTA database.

### Citation

Malaysian Health Technology Assessment (MaHTAS). Colorec bowel aid with Hai's Perianal Support (HPS). Putrajaya: Malaysian Health Technology Assessment (MaHTAS). 2014

### Authors' objectives

To review evidence on the safety, efficacy/effectiveness and cost-effectiveness of Colorec Bowel Aid with Hai's Perianal Support (HPS) for the prevention and treatment of patients with constipation, haemorrhoid and anal fissure.

### Authors' conclusions

There were three retrievable articles (one randomised controlled trial, one non-randomised controlled trial and one pre and post intervention study) related to the effectiveness of Colorec Bowel Aid with HPS in treatment of patients with anal fissure. There was limited fair level of evidence to suggest the effectiveness of Colorec Bowel Aid with HPS in the treatment of patients with chronic anal fissure. There was no report of adverse events on the use of this device. However, it has been approved by Korean FDA and has CE mark. There was no retrievable evidence on the prevention of constipation and its complications including hemorrhoid and anal fissure.
