Truchon C. Guide de pratique clinique pour la réadaptation des adultes ayant subi un traumatisme craniocérébral modéré-grave. [Clinical practice guidelines for the rehabilitation of adults having sustained a moderate to severe traumatic brain injury: development process and recommendations] Québec: Institut national d'excellence en sante et en services sociaux (INESSS). 2016

**Authors' conclusions**

The content of these guidelines are based on the status of scientific knowledge available at the time of their finalization (2015) as well as on the opinion of the experts who participated in the development of the guidelines. Choices reflected in these guidelines do not preclude the possibility of other approaches or practices also being valid and relevant.
