Role of N-acetylcysteine in prevention of contrast-induced nephropathy after cardiovascular procedures: a meta-analysis

Misra D, Leibowitz K, Gowda R M, Shapiro M, Khan I A

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
15562929

Indexing Status
Subject indexing assigned by NLM

MeSH
Acetylcysteine /administration & dosage /therapeutic use; Acute Kidney Injury /chemically induced /prevention & control; Administration, Oral; Angioplasty, Balloon, Coronary /adverse effects; Cardiac Catheterization /adverse effects; Cardiovascular Surgical Procedures /adverse effects; Contrast Media /adverse effects; Coronary Angiography /adverse effects; Humans

AccessionNumber
12004001971

Date bibliographic record published
25/01/2005
