Epidural analgesia associated with low-dose oxytocin augmentation increases cesarean births: a critical look at the external validity of randomized trials

Kotaska A J, Klein M C, Liston R M

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
16522417

DOI
10.1016/j.ajog.2005.09.014

Indexing Status
Subject indexing assigned by NLM

MeSH
Analgesia, Epidural; Cesarean Section /statistics & numerical data; Female; Humans; Oxytocics /administration & dosage; Oxytocin /administration & dosage; Pregnancy; Randomized Controlled Trials as Topic /standards

AccessionNumber
12006001045

Date bibliographic record published
12/04/2007
