Intracoronary infusion of bone marrow-derived mononuclear cells contributes to longstanding improvements of left ventricular performance and remodelling after acute myocardial infarction: a meta-analysis

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

PubMedID
22898593

DOI
10.1016/j.hlc.2012.06.024

Indexing Status
Subject indexing assigned by NLM

MeSH
Animals; Bone Marrow Cells; Humans; Leukocytes, Mononuclear /transplantation; Myocardial Infarction /physiopathology /therapy; Randomized Controlled Trials as Topic; Stroke Volume; Ventricular Remodeling

AccessionNumber
12012056504

Date bibliographic record published
18/03/2013
