Diagnostic value of adenosine deaminase in ascites for tuberculosis ascites: a meta-analysis

Tao L, Ning HJ, Nie HM, Guo XY, Qin SY, Jiang HX

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details
Tao L, Ning HJ, Nie HM, Guo XY, Qin SY, Jiang HX. Diagnostic value of adenosine deaminase in ascites for tuberculosis ascites: a meta-analysis. Diagnostic Microbiology and Infectious Disease 2013; 79(1): 102-107

PubMedID
24629577

DOI
10.1016/j.diagmicrobio.2013.12.010

Indexing Status
Subject indexing assigned by NLM

MeSH
Adenosine Deaminase /analysis; Ascitic Fluid /chemistry; Biomarkers /analysis; Humans; Peritonitis, Tuberculous /diagnosis /enzymology; Sensitivity and Specificity

AccessionNumber
12014021148

Date bibliographic record published
27/05/2014
