Cost-effectiveness of Fluorine-18-Fluorodeoxyglucose positron emission tomography in tumours other than lung cancer: a systematic review

Annunziata S, Caldarella C, Treglia G

Record Status
This is a systematic review that meets the criteria for inclusion on DARE.

Bibliographic details

DOI
10.4329/wjr.v6.i3.48

Indexing Status
Subject indexing assigned by CRD

MeSH
Humans; Positron-Emission Tomography; Fluorodeoxyglucose F18; Cost-Benefit Analysis; Neoplasms

AccessionNumber
12014028919

Date bibliographic record published
15/07/2014
