Dexmedetomidine as an anesthetic adjuvant for intracranial procedures: meta-analysis of randomized controlled trials

Peng K, Wu S, Liu H, Ji F

Record Status
This is a systematic review that meets the criteria for inclusion on DARE. If you would like us to consider prioritising the writing of a critical abstract for this review please e-mail CRD-DARE@york.ac.uk quoting the Accession Number of this record. Please note that priority is given to fast track requests from the UK National Health Service.

Bibliographic details

PubMedID
24974190

DOI
10.1016/j.jocn.2014.02.023

Indexing Status
Subject indexing assigned by NLM

MeSH
Adjuvants, Anesthesia /administration & dosage; Analgesics, Opioid /administration & dosage; Antiemetics /administration & dosage; Blood Pressure /drug effects; Brain /surgery; Dexmedetomidine /administration & dosage; Heart Rate /drug effects; Humans; Hypertension /drug therapy; Hypnotics and Sedatives /administration & dosage; Hypotension /drug therapy; Intraoperative Period; Neurosurgical Procedures /methods; Odds Ratio; Postoperative Period; Randomized Controlled Trials as Topic

AccessionNumber
12014041909

Date bibliographic record published
20/10/2014
