Comparison of simplex universal direct PCR with cytotoxicity assay for diagnosis of clostridium difficile infection: performance, cost, and correlation with disease

Landry ML, Ferguson D, Topal J

Record Status
This is an economic evaluation that meets the criteria for inclusion on NHS EED.

Bibliographic details

PubMedID
24226924

DOI
10.1128/JCM.02545-13

Indexing Status
Subject indexing assigned by NLM

MeSH
Bacterial Proteins /analysis /genetics; Bacterial Toxins /analysis /genetics; Biological Assay /methods; Clostridium Infections /diagnosis /microbiology; Clostridium difficile /genetics /isolation & purification; Diarrhea /diagnosis /microbiology; Glutamate Dehydrogenase /analysis; Humans; Neutralization Tests /methods; Real-Time Polymerase Chain Reaction /methods; Sensitivity and Specificity

AccessionNumber
22014008474

Date bibliographic record published
25/03/2014
