The NHS Economic Evaluation Database (NHS EED)

NHS Centre for Reviews and Dissemination

Record Status
This is a bibliographic record of a published health technology assessment from a member of INAHTA. No evaluation of the quality of this assessment has been made for the HTA database.

Citation

Authors' objectives
To provide information on the NHS Economic Evaluation Database (NHS EED) produced by the Centre for Reviews and Dissemination (CRD).

Authors' conclusions
- Health care resources are finite. Therefore, information about both costs and effectiveness are essential to making evidence-based decisions about competing health care interventions.

- Decision-makers in the NHS need easy access to reliable information on cost-effectiveness to make judgements about which types of health care offer value for money.

- Information about the cost-effectiveness of care can be difficult to identify, appraise and interpret.

- Easy to access critical appraisals of economic studies are available in the NHS Economic Evaluation Database (NHS EED). The database is available free of charge on the Internet http://www.crd.york.ac.uk/crdweb/

- Alternatively, the database can be searched on your behalf by CRD staff (tel: 01904-321846 or e-mail: crd-info@york.ac.uk)
