
Psychological treatment of dental anxiety among adults

Wide Boman U, Hakeberg M, Carlsson V, Eriksson M, Liljegren A, Sjögren P, Westin M, Strandell A

Record Status

This is a bibliographic record of a published health technology assessment. No evaluation of the quality of this assessment has been made for the HTA database.

Citation

Wide Boman U, Hakeberg M, Carlsson V, Eriksson M, Liljegren A, Sjögren P, Westin M, Strandell A. Psychological treatment of dental anxiety among adults. Gothenburg: The Regional Health Technology Assessment Centre (HTA-centrum). HTA-rapport 2012:46. 2012

Authors' objectives

Is BT a more effective treatment for dental phobia or dental anxiety/fear, concerning reduction of dental anxiety and acceptance of conventional dental treatment, than information, pharmacological sedation, experience of dental treatment under general anesthesia or placebo/no treatment?
